Subject Index, Volume 8 1991

Acanthosis nigricans, 79
Acne
  in adolescents, psychosocial effects of, 332–337
  after kidney transplantation, 195–197
  exacerbation, by emotional factors, 185–186
  infantile cystic, oral isotretinoin for, 166–168
  primary psychiatric disorders of, 187–188
  psychologic aspects of, 185–188
Acne excoriée
  obsessive-compulsive disorder and, 107–109
  primary psychiatric disorder and, 187
Acromelanosis, 79
Acropigmentation of Dohi, 79
Acyclovir
  for herpes zoster in children, 236–237
  pharmacologic aspects, for varicella-zoster infections, 240
  for varicella, in children and adolescents, 237–238
  in varicella-zoster virus infections, 246–247
Adolescents
  psychosocial effects of acne, 332–337
  varicella in, acyclovir for, 237–238
Adrenal cortisol hypersecretion, in McCune-Albright syndrome, 38
Aeroallergens, patch testing for, in atopic dermatitis, 346
AIDS, eosinophilic pustular folliculitis and, 193
AIDS phobia, 109
Allergy consultation, referral for atopic dermatitis, 341
Alpha$_1$-antitrypsin deficiency-associated panniculitis, 296–298
Alpha-interferon, for hemangiomas, 80
Amantadine, livedo reticularis symptomatica and, 48
Anafranil (clomipramine), for obsessive-compulsive disorders, 111–112
Anesthesia, topical, 73
Anogenital warts, scissor excision plus electrocautery for, 243–245, 248–249
Anticentromere antibody, systemic scleroderma and, 15–16, 18–19
Antihistamines
  for children, 345–346
  interference with skin testing, 345
Antinuclear antibodies, systemic scleroderma and, 13
Aplasia cutis congenita, with syndactyly and supernumerary nipples, 32–34
Argon laser therapy, 74
Arthritis, with Mucha-Habermann's disease, 55–56
Ascher syndrome, 122–123
Aspergillosis, primary cutaneous, 253–255
Astemizole, interference with skin testing, 345
Asthma, degree of activity, skin testing and, 345
Atherosclerosis, livedo reticularis symptomatica and, 48
Atopic dermatitis
  effect of aging on skin test results for, 345
  food avoidance for, 344–345
  minor clinical features of, 114–116
  patch testing in, 346
  referral for allergy consultation, 341
  skin testing for, 342
Autosomal disorders, genetic mosaicism in, 78
Azathioprine, posttransplantation skin and oral mucosa lesions and, 195–197

Bacterial infections, after kidney transplantation, 195–197
Band-Aid disease. *See* Pyogenic granuloma
Basal cell nevi, nevus comedonicus and, 300–304
Basidiobolus haptosporus, 326–328
Basidobolomycosis, 326–328
Behavioral techniques, for obsessive-compulsive disorders, 111
Benign neonatal hemangiomas, 140–145
Beta-adrenergic blockers, interference with skin testing, 345
Beta-agonists, interference with skin testing, 345
Blacks
  pediatric dermatology in, 76
  pityriasis versicolor and, 11
Black widow spiders, 79
Blaschko lines
  lichen striatus-like eruptions and, 120–121
  nevus comedonicus and, 301
  unilateral eruptive psoriasis and, 323
Blepharochalasis, in Ascher syndrome, 122–123
Bloom syndrome, differential diagnosis, 60
Borrelia burgdorferi antibodies, 293, 294, 295
Breast-feeding, atopic dermatitis prophylaxis and, 344
Brown recluse spider bites, 80
Bullous lupus erythematosus, 71

Café au lait spots, in McCune-Albright syndrome, 35–38
Calcification, subcutaneous, 78
Calcinosis
  in scleromyositis, 3
  systemic scleroderma and, 17–18
Cancer chemotherapy. *See* Chemotherapy
Capillary hemangiomas, laser therapy for, 75
Carbon dioxide laser, 75
Cheek, organoid nevus, keratoacanthoma of, 117–119
Chemotherapy
  discrete pigmentation after, 231–234
  transverse striate leukonychia and, 67–68
CHILD syndrome, 69, 79
Climate, pityriasis versicolor and, 10–11
Clomipramine (Anafranil), for obsessive-compulsive disorders, 111–112
Cockayne syndrome, differential diagnosis, 60, 205
Cold cream with 10% sulfur, for scabies treatment, 64–66

Collagen implants, 74
Collagen-vascular diseasès, livedo reticularis symptomatica and, 47–48
Congenital generalized fibromatosis. *See* Infantile myofibromatosis
Congenital juvenile xanthogranuloma, 77
Congenital malalignment of great toenails, 40–45
Congenital melanocytic nevi, surgical approach, 72–73
Conradi-Hunermann syndrome, 79
Copper vapor laser, 74
Corneal nerves, medullated, in MEN 3, 127
Corticosteroids
  interference with skin testing, 345
  posttransplantation skin and oral mucosa lesions and, 195–197
  systemic, varicella-zoster infections and, 239–240
Cromolyn, interference with skin testing, 345
Cutaneous infestations, 70–71
Cutis marmorata, description of, 47
Cutis marmorata telangiectatica congenita, 329–330
Cyclosporine
  immunity of oral mucous membranes and, 72
  posttransplantation skin and oral mucosa lesions and, 195–197

Deflazacort, for juvenile pemphigus vulgaris, 221–223
Degos disease, 78
Delusional disorders
  acne excoriée and, 187–188
  psychiatric differential diagnosis, 109
Depression
  acne and, 186
  psychiatric differential diagnosis, 109
Dermatitis herpetiformis, differentiation from linear IgA dermatosis, 312
Dermatitis syphiloides posterosiva, with urinary incontinence, 160–161
Dermatomyositis, scleromyositis and, 5–7
Diabetes mellitus, livedo reticularis and, 46–48
Diaper dermatitis, Jacquet erosive, with urinary incontinence, 160–161
Diffuse cutaneous mastocytosis, mimicking staphylococcal scalded-skin syndrome, 147–151
Disseminated neonatal hemangiomatosis, 140
Dowling-Degos disease, differential diagnosis of, 79
Dressings, wound, 74
Dry skin, of newborn infants, 155–158
Dyskeratosis congenita, diagnosis of, 81–82

Ehlers-Danlos syndrome
  alpha$_1$-antitrypsin deficiency and, 297
  classification of, 348–350
  features of, 277–278
  piezogenic papules of feet and, 278–279
Electrocautery, plus scissor excision, for anogenital warts, 243–245, 248–249
EMLA cream, 73, 75
Endocrinopathies, in McCune-Albright syndrome, 37–38
Entomophthoromycosis, 326
Eosinophil granule proteins, in incontinentia pigmenti, 105
Eosinophilic fasciitis, differentiation from morphea profunda, 294
Eosinophilic pustular folliculitis, 189–193
Epidermal nevus syndrome, clinocopathologic study of, 228–230
Epulis gravidarum, 268
Estrogens, fibromatoses and, 308
Etoposide, cutaneous manifestations, 233–234
Excision, scissor, plus electrocautery, for anogenital warts, 243–245
Exophytic scalp tumor, of newborn, 84–85

Fatty alcohol:NAD+ oxidoreductase deficiency, 219
Feet, piezogenic papules, connective tissue disorders and, 277–279
Fetal varicella syndrome, 239
Fever, with Mucha-Habermann's disease, 55
Fibrosarcoma, differential diagnosis, 308
Flashlamp-pumped pulsed dye laser therapy
  for poikilodermatous component of Rothmund-Thomson syndrome, 162–164
  for spider telangiectases, 61–63
Flooding, for obsessive-compulsive disorders, 111
Fluoxetine (Prozac), for obsessive-compulsive disorders, 111–112
Food allergy
  atopic dermatitis and, 342
  definition of, 341–342
  diagnosis of, 342–343
Food avoidance, for atopic dermatitis, 344–345
Food diaries, for food allergy, 343–344
Franceschetti-Jadassohn disease, 79
Francois syndrome, differential diagnosis, 60
Frostbite, spray-induced, 207–209

Gastrointestinal ganglioneuromatosis, in MEN 3, 127
Genetic mosaicism
  in autosomal disorders, 78
  description of, 69–70
Gianotti-Crosti syndrome, diagnosis of, 169–171, 224–226
Gingival hypertrophy, after kidney transplantation, 195–197
Glucose intolerance, in lichen planus, 290
Gottron sign, in scleromyositis, 3, 4, 6
Graft-versus-host disease (GVHD), mucositis and, 72
Granuloma gravidarum, 268
Granuloma pyogenicum, multiple, 28–30
Greenhouse gas production, 77

Grenz zone, 281
GVHD (graft-versus-host disease), mucositis and, 72

Hallerman-Streiff syndrome, differential diagnosis, 60
Hand-Schüller-Christian disease. *See* Histiocytosis X
Hay fever, degree of activity, skin testing and, 345
Heart surgery, hypothermic, postoperative subcutaneous fat necrosis, 210–212
Hemangiomas
  alpha-interferon for, 80
  benign neonatal, 140–145
  capillary, laser therapy for, 75
  disseminated neonatal, 140
  in Kasabach-Merritt syndrome, 133–136
Hepatitis, alpha$_1$-antitrypsin deficiency and, 297
Hepatitis B infection, papular acrodermatitis of childhood and, 225–226
Hereditary mucoepithelial dysplasia, 72
Herpes simplex virus, infantile digital fibromatosis and, 137–139
Herpes zoster infections. *See also* Varicella-zoster infections
  in children, acyclovir for, 236–237
  oral acyclovir for, 240–241
Herpetic gingivostomatitis, 72
Histiocytosis X, 214–215
HLA B8 DR3 haplotype, linear IgA dermatosis and, 312
Hoeppli-Splendore phenomenon, 326
Hormones, pityriasis versicolor and, 11
Human papilloma virus, infantile digital fibromatosis and, 137–139
Hutchinson-Gilford progeria syndrome, dermatologic changes, 199–206
Hydroxyzine, usage in children, 345–346
Hypercalcemia, livedo reticularis symptomatica and, 48
Hyperpigmentation, from chemotherapy, 231–234
Hypertrichosis, after kidney transplantation, 195–197
Hyperviscosity, livedo reticularis symptomatica and, 48
Hypogonadism, in Rothmund-Thomson syndrome, 60

Immunity, oral mucosa and, 71–72
Immunoglobulins, in lichen planus, 290
Immunologic markers, of systemic scleroderma, 13–18
Incontinentia pigmenti, major basic protein in, 102–105
India, childhood leprosy in, 21–24
Infantile acropustulosis, 284–287
Infantile cystic acne, oral isotretinoin for, 166–168
Infantile digital fibromatosis, 137–139
Infantile myofibromatosis, 129–132, 306–309
Inflammatory mediators, ultraviolet-induced, 76
Interferon therapy, for benign neonatal hemangiomas, 145
Intradermal tests, for food allergy, 342
Isotretinoin, oral, for infantile cystic acne, 166–168

Jacquet erosive diaper dermatitis, with urinary incontinence, 160–161
Joseph knife, blunt curved, 80
Juvenile pemphigus vulgaris, deflazacort for, 221–223
Juvenile xanthogranuloma, with neurofibromatosis, 339–340

Kasabach-Merritt syndrome, 80, 133–136
Keratoacanthoma, in organoid nevus, 117–119
Kidney transplantation, postoperative cutaneous and oral lesions, 194–197
Ki-1 lymphoma, 72
Kitamura hyperpigmentation, 79
Klippel-Trenaunay-Weber syndrome, mosaicism in, 78
Koebner phenomenon
  in lichen aureus, 281
  in lichen planus, 289
  in papular acrodermatitis of childhood, 171

Lactation, atopic dermatitis prophylaxis and, 344
Langerhans cell histiocytosis, simulating lichen aureus, 213–215
Langerhans cells, in oral mucosa, 71
Laser therapy
  for benign neonatal hemangiomas, 145
  for capillary hemangiomas, 75
  current status, 74–75
  for poikilodermatous component of Rothmund-Thomson syndrome, 162–164
  for port-wine stains, 75
  psychological preparation for, 75
  for spider telangiectases, 61–63
Leprosy, childhood, in India, 21–24
Letterer-Siwe disease. *See* Histiocytosis X
Leukotriene$_4$, in incontinentia pigmenti, 105
Lichen aureus
  clinical findings, 281
  differential diagnosis, 281–282
  frequency, 280
  histologic features, 280–282
  pathogenesis, 282–283
Lichen planus, 288–290
Lichen sclerosus et atrophicus, 97–100
Lichen striatus, unilateral eruptive psoriasis and, 322–323
Lichen striatus-like eruptions, Blaschko lines and, 120–121
Linear IgA dermatosis, 310–313
Lingual fuungiform papillae hypertrophy, after kidney transplantation, 195–197
Livedo racemosa. *See* Livedo reticularis symptomatica
Livedo reticularis, diabetes mellitus and, 46–48
Livedo reticularis idiopathica, description of, 47
Livedo reticularis symptomatica, description of, 47–49
Livedo vascularis, associated diseases, 47

Lobular capillary hemangioma. *See* Pyogenic granuloma
Loxosceles bite, differential dilagnosis, 80
Lupus erythematosus, bullous, 71

Mahogany discoloration, from millipede secretion, 25–26
Major basic protein, localization, in incontinentia pigmenti, 102–105
Marfanoid habitus, in MEN 3, 126
Mastocytosis
  diffuse cutaneous, mimicking staphylococcal scalded-skin syndrome, 147–151
  xanthelasmoid, 152–154
McCune-Albright syndrome
  with bilateral café au lait spots, 35–38
  mosaicism in, 78
Medullary thyroid carcinoma, in MEN 3, 126
Mees' lines, cancer chemotherapy and, 67–68
MEN 3, 124–127
Menkes disease, 69–70
MEN type 2b, 124–127
Metabolic disorders, livedo reticularis symptomatica and, 48
Millipede secretion, mahogany discoloration from, 25–26
Monocytic leukemia, 71
Morphea profunda, solitary, 292–295
Mosaicism, genetic, 69–70, 78
Mucha-Habermann's disease, 51–57
Mucoepithelial dysplasia, hereditary, 72
Multiple endocrine neoplasia type III, 124–127
Multiple pyogenic granulomata, in childhood, 28–30
Multiple sclerosis, alpha$_1$-antitrypsin deficiency and, 297
Mutations, X-linked, 69
Myofibromatosis, infantile, 129–132

Nail biting, chronic, 107
Nails
  congenital malalignment of great toenails, 40–45
  in lichen planus, 289, 290
  Mees' lines, cancer chemotherapy and, 67–68
Neodymium:yttrium-aluminum-garnet laser (Nd:YIAG), 75
Nerve involvement, in childhood leprosy, 22–23
Neuroepithelioma, 77
Neurofibromatosis
  with juvenile xanthogranuloma, 339–340
  mosaicism in, 78
Nevus comedonicus, 300–304
Nevus sebaceus of Jadassohn, 117–119

Obsessive-compulsive disorders
  acne excoriée and, 187
  definition of, 107–108
  management of, 110–112
  pathogenesis of, 109–110
  psychiatric differential diagnosis, 108–109
  thought content and, 109
Ofuji disease, 189–193
Onychophagia, 107
Onychoschizia, after kidney transplantation, 195–197
Onychotillomania, 107, 108
Oral mucosa
  immunity and, 71–72
  lesions of, after kidney transplantation, 194–197
  neuromas of, in MEN 3, 125
Organoid nevus, keratoacanthoma of, 117–119
Osteolytis, multiple idiopathic, 77

Pachonychia congenita, 71
Pancreatic fibrosis, alpha$_1$-antitrypsin deficiency and, 297
Panniculitis, alpha$_1$-antitrypsin deficiency-associated, 296–298
Papular acrodermatitis of childhood, diagnosis of, 169–171, 224–226
Papular mucinosis, 79
Patch testing, in atopic dermatitis, 346
Perfectionism, obsessive-compulsive disorders and, 110
Pheochromocytoma, in MEN 3, 126
Photobiology, 75–76
Piezogenic papules, of feet, connective tissue disorders and, 277–279
Pigmentation, ultraviolet light exposure and, 76
Pityriasis lichenoides et varioliformis acuta, 51–57
Pityriasis versicolor, in childhood, 9–11
Platinum coordination complexes, cutaneous manifestations, 234
PM-scl antibody, in scleromyositis, 1, 4–6
Poikiloderma congenitale, 58–60
Polyarteritis nodosa, livedo reticularis symptomatica and, 48
Polyostotic fibrous dysplasia, 37
Pork fat with 10% sulfur, for scabies treatment, 64–66
Portuguese man-of-war stings, 70
Port-wine stains, laser therapy for, 75
Pregnancy
  food avoidance, atopic dermatitis development and, 344
  varicella-zoster infections in, acyclovir for, 238–239
Progeria, differential diagnosis, 204–206
Proteus syndrome, mosaicism in, 78
Prozac (fluoxetine), for obsessive-compulsive disorders, 111–112
Psoralen and ultraviolet A light (PUVA), for vitiligo, 80
Psoriasis, unilateral eruptive, lichen striatus and, 322–323
Psychiatric disorders, resulting from acne, 186–187
Psychological preparation, for laser therapy, 75

Psychosocial effects, of acne, in adolescents, 332–337
Pyogenic granuloma
clinopathologic study, 267–274
disseminated, differential diagnosis, 143
multiple, in childhood, 28–30
nomenclature, 268

Quinidine, livedo reticularis symptomatica and, 48

Radioallergosorbent test (RAST)
description of, 345–346
indications for, 345
Radiography, of Hutchinson-Gilford progeria syndrome, 202–206
Raynaud's phenomenon
livedo vascularis and, 47
in scleromyositis, 3, 4
systemic scleroderma and, 13, 15–17
Rheumatoid arthritis, alpha$_1$-antitrypsin deficiency and, 297
Rothmund-Thomson syndrome
clinical features of, 58–60
differential diagnosis, 205
flashlamp-pumped pulsed dye laser therapy for poikilodermatous component, 162–164
Ruby laser, 75

Scabies
infantile acropustulosis and, 285–287
10%sulfur in treatment of, 64–66
Scalp tumor, exophytic, of newborn, 84–85
Scl-70 antibody, systemic scleroderma and, 15–16, 18–19
Scleroderma
cutaneous. *See* Morphea
systemic
[SUB]immunologic markers of, 13–18
[SUB]scleromyositis and, 5–7
Scleromyositis
dermatomyositis and, 5–7
features of, 1–5
scleroderma and, 5–7
Sea urchin injuries, 70
Seaweed dermatitis, 70
Self-concept, acne and, 186, 332–337
Serotonin hypothesis, of obsessive-compulsive disorders, 110
Severe combined immunodeficiency, 314–320
Sexual precocity, in McCune-Albright syndrome, 38
Sharp syndrome, 6
Sjögren-Larsson syndrome, 217–220
Skin color, 75–76
Skin lesions, after kidney transplantation, 194–197
Skin tests
for atopic dermatitis, 342
degree of activity of asthma or hay fever and, 345
drug interference of, 345
effect of aging on results in atopic dermatitis, 345
for food allergy, 342–343
sensitivity, vs. RAST, 345
Sneddon's syndrome, livedo reticularis symptomatica and, 48
Social phobia, acne and, 186
Spider bites, 79–80
Spider telangiectases, flashlamp-pumped pulsed dye laser for, 61–63
Sponges, poisoning from, 70
Spray-induced frostbite, 207–209
Staphylococcal scalded-skin syndrome, simulated by diffuse cutaneous mastocytosis, 147–151
Stingray injuries, 70–71
Stings, from fish species, 70–71
Stratum corneum, functional analysis of, 155–158
Striate leukonychia, transverse, cancer chemotherapy and, 67–68
Sturge-Weber syndrome, mosaicism in, 78
Subcutaneous fat necrosis, after hypothermic cardiac surgery, 210–212
Subcutaneous morphea, 292–295
10% Sulfur, for scabies, 64–66
Supernumerary nipples, with aplasia cutis congenita, 32–34
Surgery, advances in, 72–74
Suture material, absorbable, 73–74
Swimmer's itch, 70
Syndactyly, with aplasia cutis congenita, 32–34

Telangiectasia, systemic scleroderma and, 18
Theophylline, interference with skin testing, 345
Thomson's syndrome. *See* Poikiloderma congenitale
Tinea capitis, diagnositic technique, 80
Tissue expansion, 72–73
Toxic epidermal necrolysis (TEN), 79
Transepidermal water loss, in stratum corneum, 155–158
Tricholemmal cysts, nevus comedonicus and, 300–304
Trichotillomania, 107–108
Tricyclic antidepressants, interference with skin testing, 345
Tropical diseases, 76–77

Uremia, skin lesions of, 195–196
Urinary incontinence, with Jacquet erosive diaper dermatitis, 160–161

Varicella infections
in children and adolescents, acyclovir for, 237–238
oral acyclovir for, 240–241

Varicella-zoster infections
oral acyclovir for, 246–247
in patients receiving systemic corticosteroids, 239–240
in pregnancy, acyclovir for, 238–239
Venomous arthropods, 79–80
Voight's lines, 301

Warts, anogenital, scissor excision plus electrocautery for, 243–245, 248–249
Weber-Christian disease, 298
Werner syndrome, differential diagnosis, 60
Wiskott-Aldrich syndrome, diagnosis of, 250–251

Xanthelasmoid mastocytosis, 152–154
X-linked mutations, 69
X-linked phenotypes, nonlethal, 69–70

Zellweger syndrome, 79
Zoster. *See* Herpes zoster infections; Varicella-zoster infections
ZZ genotype, 296, 297–298
